08 September 2009

Thank you Mr President.

Having been an advocate of the participation of NGO: s through such contributions, I welcome the statement made by Mrs. Snyder and I think it would helpful if she could give us a written copy of her statement. But, I hope that in the written copy of the statement she will correct what she said when reading it of the statement when she said that what we did on the 29th of May this year as the infamous adoption of the programme of work.

Thank you!
